Whereas, every 24 seconds, a fire department in the United States responds to a fire somewhere in the nation; and

Whereas, 74% percent of all fire deaths occurred in the home in 2018; and

Whereas, home fires were responsible for 11,200 civilian injuries and 74% of all civilian injuries in 2018; and

Whereas, the value of community support from local, state, and national partners to address community risks is recognized to meet the demands on paid, combination, and volunteer members of the fire service; and

Whereas, the goal of Community Risk Reduction is to reduce the occurrence and impact of emergency events for both community members and emergency responders through deliberate action in the areas of the five E's of Education, Engineering, Enforcement, Emergency response, and Economic incentive; and
